1. INTRODUCTION

Brisa – Auto-Estradas de Portugal (BAE) and all its Affiliates, hereinafter referred as “**Brisa**”, pursue their activity in strict compliance with the law and the ethical standards and principles set out in the Code of Ethics and Conduct and all other internal policies in effect.

As part of its activity, the Brisa enters into numerous product and service provision agreements with Suppliers, which are thus key partners and an indissociable part of the Brisa’s business. In this sense, Suppliers should be fully aligned with the Brisa’s principles and values.

The signing of any contracts between Suppliers and Brisa is always based on legal, good faith, economic rationality and technical adequacy criteria, principles of good governance and environmental and social sustainability. The level of commitment of Suppliers to environmental and social sustainability goals, equality, inclusion, diversity, absolute respect for human rights and the unconditional rejection of corruption, amongst other aspects, represent very significant factors in the Supplier selection process adopted by the Brisa. The Brisa’s Supplier selection process is always based on ethical commitment, value, quality, reliability, innovation and sustainability, irrespective of the products supplied, services provided, markets, regions and processes.

This Code of Conduct for Suppliers, hereinafter referred to as “**Code**”, should be read together with the Code of Ethics and Conduct, the Brisa Whistleblowing Regulation, the Brisa Group Procurement and Purchase Policy and the definitions included in point 3. The information included in this document is complemented by the contents available in the Related Documents and Useful Links, as listed in point 9.

This Code does not override any additional or more demanding condition or requirement that may arise from legislation that is specifically applicable or relevant in the countries where Brisa operates.

2. SCOPE

This Code establishes the values and principles that must be complied with by Brisa's Suppliers, which are based on the law and best practices at an environmental and social level and commitments to good governance.

All those who wish to establish a commercial/contractual relationship with Brisa must fully and unreservedly accept the Code, undertaking to ensure that its Affiliates and all its Employees, partners, auditors, accountants, agents, representatives, advisors and consultants, including financial entities, lawyers, technicians and other service providers who act in their name and/or on their behalf, know and comply with this Code.

In everything that this Code is omitted or incomplete, the provisions of Brisa's Code of Ethics and Conduct are considered applicable.

4. PRINCIPLES OF ETHICS AND CONDUCT

4.1. Human and Labour Rights

The Suppliers shall be required to comply with the following:

- All legislation applicable to their activity, as well as this Code;
- The [Principles of the United Nations Global Compact](#), through the implementation of adequate processes in their organisations;
- Workers' rights, under the terms of the applicable legislation;
- The principles established in the United Nations [International Bill of Human Rights](#), as well as the [labour standards issued by the International Labour Organisation \(ILO\)](#), taking the laws and regulations applicable in the various geographic areas into account;
- The national legislation pertaining to employee remunerations, namely the national minimum wage and the payment of overtime rates.

4.1.1. *Non-Discrimination, Diversity and Inclusion*

Suppliers repudiate any discriminatory or harassing practice and promote diversity, inclusion, gender equality, opportunities and treatment, personal and professional development throughout their organization and at all times, namely in the processes of recruitment, promotion or selection of Employees for basic or advanced training programs.

The Suppliers do not discriminate against any Employee on the basis of their gender, age, appearance, colour, race, ethnicity, nationality, ancestry, sexual orientation, physical or mental disability, religion, political or ideological belief, economic situation, social context or contractual relationship.

4.1.2. *Child Labour*

The Suppliers shall not use or allow the use of child labour, of any type, within their organisation and value chain, and will ensure compliance with the [ILO](#) provisions on child labour.

4.1.3. *Forced Labour*

The Suppliers shall not use forced or mandatory labour, of any type, within their organisation and value chain, and will ensure compliance with the [ILO](#) provisions on new forms of slavery and slave labor.

4.1.4. *Freedom of Association*

The Suppliers shall respect the rights of their Employees, including the formation of workers' councils, collective bargaining units or any other employee association established for collective bargaining purposes.

4.1.5. *Remuneration and Decent Working Conditions*

Suppliers guarantee fair and dignified remuneration and working conditions for all their Employees. In line with the remuneration standards for professional activity in the European Union (EU) (or similar), Suppliers guarantee all their Employees a fair and adequate remuneration for a decent standard of living for them and their families.

4.1.6. *Occupational Health and Safety*

Suppliers fully comply with the applicable legislation regulating hygiene, health and safety at work. Suppliers have adequate occupational health and safety management systems, including the containment of actual and potential occupational health and safety risks. In addition, Suppliers must raise awareness and train their Employees in order to reduce the number of accidents and occupational diseases.

4.2. Data Protection

The Suppliers respect the privacy of the information of the Data Subjects, complying with all legal and regulatory standards, national and international, and also Brisa's instructions regarding the processing and protection of personal data, when processing them in the name and on behalf of Brisa.

4.3. Cybersecurity and Information Security

The Suppliers shall adopt adequate technical and organisational measures in order to mitigate the increasing risk of cyberattacks, as well as implement the appropriate controls to protect the information under their responsibility, complying with all legal and regulatory standards in force.

4.4. Social Commitment

The Suppliers shall be committed to contributing to the social and economic wellbeing of the communities where they operate.

4.4.1. *Local Value Creation*

Brisa seeks to contribute to the social and economic development of the communities where it operates and values all Suppliers committed to the success of this mission. The Suppliers shall be required to demonstrate their engagement with the communities and willingness to respond/participate in the community and/or stakeholder issues, namely through regular involvement in volunteer initiatives, contributions or donations to the community.

In what concerns leadership, Brisa expects its Suppliers to collaborate proactively in the creation of employment and/or companies that may, in the long-term, contribute to the evolution and development of the communities where they operate.

4.5. Protection and Promotion of Environmental Sustainability

Brisa integrates and promotes the best environmental practices in its activities and value chain, focusing on environmental aspects such as the reduction of water consumption, the efficient management of waste and materials and their circularity, the preservation and promotion of biodiversity, the efficient management of energy consumption and the reduction of GHG emissions, under the terms of Brisa's Environmental Policy.

In this sense, the Suppliers should be aligned with the [Sustainable Development Goals](#) considered by the Brisa as a priority and included in the Brisa's strategic plan, as well as comply with all applicable environmental protection legislation, regulation and standards. The Suppliers shall be required to adopt the best international practices concerning the promotion of environmental sustainability, on local and global levels, albeit not being obligated to pursue this course of action, under the terms of the specific environmental standards applicable. The Suppliers should implement and maintain an adequate environmental management system (e.g. in compliance with the ISO 14001 Standard or similar).

4.5.1. Energy Efficiency and Reduction of GHG Emissions

Brisa promotes the integration of good practices for efficient energy consumption and the reduction of GHG emissions into its activities and value chain, which is one of the relevant aspects of its sustainability strategy. In this sense, Brisa promotes the reduction of energy consumption and the use of renewable energy sources, promoting the decarbonization of the economy, in line with its objectives and targets, and with the main references at national and international level.

Suppliers must act in accordance with this objective and in order to promote its achievement at Brisa and, as such, promote and implement good energy efficiency practices and reduce GHG emissions, favoring the use of renewable energy.

4.5.2. Efficient Management of Waste and Materials

Brisa supports the adoption of good practices aimed at promoting a circular economy across its activities and value chain, as a relevant aspect of the Brisa's sustainability strategy, with a view to reducing the environmental footprint of the materials and products purchased from its suppliers and the waste and by-products generated, in line with the Portuguese and European [Circular Economy Action Plan](#).

Suppliers must act in accordance with this objective in order to promote its realization at Brisa and, as such, must promote, implement and demonstrate good practices in the efficient management of waste and materials, with a view to their circularity.

4.5.3. Biodiversity Management

Brisa is committed to integrating nature into its strategy and business model, implementing measures for the conservation, protection and restoration of biodiversity and ecosystems, for the sustainable use of natural resources and for a fair and equitable distribution of the benefits that result from this use.

Thus, Suppliers must act to collaborate with Brisa in fulfilling the commitments assumed in their adherence to [act4nature Portugal](#).

5. CONDUCT IN THE BUSINESS ENVIRONMENT

5.1. Prohibition of Corruption and Related Offenses

Brisa and their Employees comply with the law at all times, with absolute integrity, rejecting any practice that may be construed as Corruption or a Related Offence. In this sense, Brisa's Suppliers shall be required to expressly declare their compliance with the law at all times, with absolute integrity, adopting rules and procedures that enable them to comply with the legal provisions on combating corruption and other related offenses or influence peddling, repudiating any practice of Corruption and Related Offenses.

The Suppliers shall:

- Be required to comply with the anti-corruption conventions subscribed by reference organisations, namely the [United Nations \(UN\)](#) and the [Organisation for Economic Cooperation and Development \(OECD\)](#).
- Ensure that their Employees will not offer, promise or grant any benefits to any Brisa Employee or Related Parties, for the purpose of obtaining any form of preferential treatment within the scope of their business transactions;
- Declare that they are not prohibited by a governmental or international agency from responding to invitations to tender or from contacting or working with that agency due to alleged or proven acts of corruption, related offenses or influence peddling;
- Define appropriate rules, procedures and controls to prevent the practice of acts of corruption and other related offenses, influence peddling, ensuring that any evidence or suspicion related to Brisa is subject to rigorous investigation, processed with due diligence and reported to Brisa through the [Whistleblower Platform](#);
- Not aware that, at any time in the last 5 (five) years, they have made any contribution to a candidate for public office in any country or failed to comply with the obligation to disclose the making of such a contribution, or made a payment that is not permitted or required under the law of any jurisdiction, to a public official of state, regional or federal jurisdiction, as applicable.

5.2. *Money Laundering and Terrorist Financing*

Brisa and all its Employees always act in compliance with the law and with integrity, repudiating any practice of money laundering and terrorist financing, and its Suppliers also commit to always act in compliance with the law and with integrity, repudiating any of these practices.

The Suppliers:

- Shall also declare to have knowledge of and comply, to the extent applicable thereto, with all legislation aimed at preventing money laundering, namely the FAG Recommendations, the Penal Code and Law no. 83/2017, of 18 August, which establishes measures aimed at preventing money laundering and the financing of terrorism. The Suppliers should conduct their activity in accordance with the most exacting international rules and standards, despite not bound thereto, under the applicable law;
- Conduct their business in accordance with the highest international regulations and standards, even if they are not bound to do so under the terms of the applicable law;
- Declare that they are not currently the object or target of sanctions, located or resident in a territory or country subject to sanctions, understood as any penalty imposed by governments or government institutions, the United Nations Security Council (UNSC), the EU or other sanctions with an identical objective, administered or imposed by any authorities or judicial bodies;
- Maintain and comply with international policies, procedures and controls consistent with their profile, in order to ensure that they do not engage in any transaction with or for the benefit of individuals or entities subject to sanctions or related to activities prohibited by the United Nations, the United States of America or the EU or any of its current or future Member States.

5.3. *Prevention of Conflicts of Interest*

Within the scope of their commercial and/or contractual relationship with Brisa, Suppliers act in accordance with the principles of ethics, loyalty and good faith, based on criteria of economic rationality. In their relationship with Brisa, Suppliers must prevent and avoid direct or indirect, actual or potential Conflicts of Interest, or when this is not possible, formalize the existence or potential for Conflicts of Interest through Brisa's website, in the [Whistleblower Platform](#), and deal with them in order to resolve them in an ethical and responsible manner.

The Suppliers ensure that, in each commercial or contractual relationship, their employees, agents, members of corporate bodies, attorneys, suppliers or subcontractors, or any other third party acting on their behalf, do not have any business, family or other relationships that create a conflict of interest in their relationship with Brisa.

5.4. *Competition*

The Suppliers shall conduct their business in a fair manner and comply with the law, applicable regulations and the recommendations issued by the competition authority. The Suppliers should refrain from adopting any practices, make any decisions or sign any agreements that could falsify, prevent or restrict free competition or constitute a breach of the competition law.

6. RELATIONS WITH SUPPLIERS

The Suppliers shall ensure the adoption of the selection criteria, principles and values established in this Code by their Affiliates, suppliers and any persons or entities in a contractual relationship therewith. The Suppliers should actively promote compliance with the provisions included in this Code, namely concerning the protection of human rights, working conditions, fight against corruption and environmental protection, in compliance with their contractual obligations.

7. WHISTLEBLOWING

The Suppliers shall report any act or omission that constitutes a breach of the rules and standards established in national, European Union and international laws and regulations, under the terms specified in the Irregularities Report Regulation.

8. FINAL PROVISIONS

All situations not described in this document or raising doubts should be forwarded to the BAE Procurement and Purchasing Department (BAE/DPC), which is responsible for identifying the most adequate solution and/or providing clarifications.

The BAE Executive Committee (EC) is responsible for approving this Code of Conduct, in order to ensure the maximum rigour and excellence with respect to the principles and guidelines adopted.

The application of this Code of Conduct does not preclude the applicability of any other provisions concerning the protection of whistle-blowers, as established in national, European Union or international legislation or regulations.

São Domingos de Rana, May 6th, 2024

Daniel Amaral, *Chairman of the Executive Committee*
