

ENVIRONMENTAL OBJECTIVES BIO

In order to reduce the most significant aspects/impacts of its activity, Brisa Infraestruturas e Operação (BIO), a unit of the Brisa Group that includes Brisa Gestão de Infraestruturas S.A. (BGI) and Brisa O&M, S.A. (BOM), has defined the following objectives:

Environmental Objectives BIO

ELECTRIC POWER

- Reduction of Electricity Consumption (%)
- Increased Consumption of Electricity by BIO in Renewable Energy Sources (%)

FUEL

- Reduction of the specific fuel consumption (Gep/v.km) of the fleet
- Reduction of overall fuel consumption (%)

EMISSIONS

- Reduction of emissions (in TCO₂eq) associated with energy consumption by 2030
- (scope 1 e 2)

WATER

- Reduction of water consumption (in m³)(%)

Environmental Objectives

WASTE

- Reduction of the amount of waste in t (%)
- Increased rate of waste recovery (%)

PAPER CONSUMPTION

- Reduced paper consumption (%)

CHEMICALS

- Reduced consumption of chemicals

EMERGENCY

- Maintain zero rate of accidents or incidents with associated environmental consequences
