

In order to reduce the most significant aspects/impacts of its activity and meet ESG environmental requirements, A-to-Be has defined the following objectives:

- Reduction of energy consumption (Palmela Logistic Platform & Lagoas Park)
- Reduction of fuel consumption
- Reduction of water consumption (Palmela Logistic Platform)
- Reduction of CO2 emissions (TCO2eq) – Scope 1 & 2
- Waste recovery rate increase
- Reduction of rate of equipment going for scrapping
- Reduction in the amount of WEEEs
- Positive environmental evaluations in the development of hardware projects
- Monitoring of subcontractors and main suppliers
